National Priorities Addressed

Issue Questions	Responses
1. Will the treatment you intend to implement using EQIP result in the improvement of water quality by controlling erosion and reducing sediment and nutrient levels in ground and surface water?	Yes <input type="radio"/> or No <input type="radio"/>
2. Will the treatment restore, enhance, and preserve soil, air, and related resources in the Chesapeake Bay watershed?	Yes <input type="radio"/> or No <input type="radio"/>
3. Will the treatment you intend to implement for improving water quantity using EQIP result in a considerable reduction in water use?	Yes <input type="radio"/> or No <input type="radio"/>
4. Will the treatment you intend to implement using EQIP result in habitat conservation, restoration, and enhancement where there is significant ecological value?	Yes <input type="radio"/> or No <input type="radio"/>
5. Has "special considerations" been given to the following river basins – The Susquehanna River, The Shenandoah River, The Potomac River (including North and South), and The Patuxent River?	Yes <input type="radio"/> or No <input type="radio"/>

State Issues Addressed

Issue Questions	Responses
1. Does the applicant have a current conservation plan (plan that adequately addresses soil erosion and water quality) for the land that is being offered for enrollment?	Yes <input type="radio"/> or No <input type="radio"/>
2. Is the applicant ready, willing, and able to implement/complete the contract by December 2010, maintenance year 2011 (December 2012 if conversion to Continuous No-Till System (3 year 329) is being implemented through the proposed contract, maintenance year 2013)?
